

What We Do

Innovation is important, but so is protecting the innovations from infringement. Knowledge of Intellectual Property Rights is paramount in times of rapidly developing technologies and products. IPTSE endeavours to equip budding innovators and students with the knowledge of IP, and in pursuance of the same, annually conducts an IP Talent Search Examination focused on Intellectual Property Rights on a pan-India basis for students, professionals, faculty, and start-ups. IPTSE also conducts informative and interactive webinars and seminars and training sessions for enabling professional growth and academic research in the IP domain
